Background

Founded in 2016 Global Bridge recognizes that the Host Home or Homestay experience is often the most complex and high-stakes component of an international program for schools and administrators. One of the primary challenges in establishing and maintaining such programs is navigating concerns around liability and ensuring the safety and well-being of students.

To alleviate these challenges, Global Bridge offers a fully managed, end-to-end support program designed to provide schools with complete peace of mind. Our comprehensive services include dedicated staffing, monthly reporting with host families and students, and strategic program oversight. By streamlining operations and implementing proactive risk management strategies, Global Bridge minimizes institutional liability while fostering a safe, enriching, and well-supported homestay experience for every student.
